IT PAYS TO SPECIALIZE

In the year 1918 when labor was scarce and operating conditions complicated, we hazarded a guess that a solution of some of the problems then confronting us would be to specialize in a few lines. To that end we discontinued growing all stock other than Ornamental, Deciduous and Evergreen Trees, and Shrubs.

From that time on we bent every effort to establish a reputation for producing Ornamentals of exceptional quality, and it is gratifying to note that our customers of that time are still regular buyers with additional support increasing steadily year by year.

During 1930 we were kept steadily plugging with an abundance of business, inspite of the depression we heard so much about, with the result that our net profits for the year showed a substantial gain over preceding years.

This business came to us entirely without solicitation or cut prices, and we gratefully attribute it to a response to our efforts to secure the confidence of our customers.

We propose to continue to grow Ornamentals the very best we know how to merit a continuance of this confidence.

SHREWSBURY NURSERIES.

Deciduous Trees

Only those trees which conform to the highest recognized standards are included in this list. We do not inventory stock which cannot be used by the most discriminating buyer.

For large specimen trees for immediate landscape effects, ask for special quotation.

Evergreen Trees

We believe the highest compliment paid our evergreens is the fact that job lot buyers of cheap stock for resale, whose custom we do not solicit, invariably come to us when seeking plants of superior quality.

Our entire stock is grown for the highest class retail trade, and we are not over-stocked in any item, quality before quantity being our object.

All evergreens are frequently transplanted, and prices quoted include digging with ball and burlapping.
